Summary:

Challenges, which make use of my manual and automation testing skills, project management and mentoring abilities drive me. Technology professional with 4+ years of IT experience in testing and requirements analysis. Outstanding communications skills make me a great team player as well as an individual performer. Knowledge in Quality Assurance with strong understanding of Software Test Life Cycle and object-oriented methodologies as well as Software Development Life Cycle. Strong experience in Java and Selenium. Functioned in Agile and had exposure to Waterfall environments. Exceptional at analytical thinking and code debugging. Great at time management and multitasking by prioritizing. Excellent at learning new skills that can be applied to improve the outcome of tasks and responsibilities.

Skills:

Java | Selenium | TestNG | Postman | API Testing | Jira | HTML | CSS | Jenkins | Git | SQL | Cucumber | POM

Experience:
